

Published by the American Geophysical Union as part of the Geophysical Monograph Series, Volume 39. In recognition of the profound contributions made by Professor Syun-iti Akimoto in high pressure-high temperature research, which have enhanced our understanding of the earth's interior, and for his tireless efforts in furthering the U.S.-Japan cooperative research program, it is most fitting to dedicate this volume to him. This volume in honor of Professor Akimoto is a symbol of cooperation in international science that is exemplified by his contributions.
