

Oceans Project Georgia (OPG) is a registered NGO in the former Soviet Republic of Georgia. In 2011, OPG began an environmental education, maritime archaeology, and English as a foreign language course for young people aged 8-25, based on the BBC Oceans television series. This ebook accompanies the free, online version of the Oceans Project Georgia 30 week course. It should be read alongside the BBC Oceans series, but can be used as a stand alone book. The OPG team are currently training to row across the Pacific Ocean in June 2014 and the course aims to bring young people together with lessons live from the ocean.
