

Are news reports prepared by journalists or are they prepared by public relations specialists? What do we know about the nature and effect of information packaged as part of a PR campaign and transmitted to us as news? What can research tell us? Public Relations is a comprehensive study of this neglected field of communications research. Pavlik examines the many theories of how information works and sheds light upon the link between information, attitude and behaviour.

Interstellar Travel: Past, Present, and Future, Microeconomics: Principles and Tools, Zensiert: Flaschenpost in die Zukunft (Die beiden Geschlechter 4) (German Edition), Organic Molecular Aggregates: Electronic Excitation and Interaction Processes.
