

Accumulate \$1,000,000 with NO taxes EVER Take \$6,000 monthly income FREE of income taxes. Avoid tax on up to 85% of your Social Security benefits. Turn your taxable pension or IRA into tax-FREE income. Use a special tax haven to protect all your earnings and gains. Isn't it time you started using the tax laws to your benefit like the people in the top 1% of income do? How does Warren Buffett pay only 17% total tax? How does Mitt Romney pay less than 15%? You may not receive \$21 million a year like Romney does but you can use a tax haven he can't use to compound your money into \$1,000,000. Compounding high investment earnings is "the most powerful force in the universe," Einstein said. Compounding is money earning money on its earnings over time. Simple but powerful and you pay NO tax! When you both invest \$250 a month, \$6,000 a year, in successful businesses, you can earn more than a bank CD. After 15 years, you could have \$250,000 because the businesses paid dividends and other people offered you more than you paid for your shares of the businesses. After 25 years, you could have \$1,000,000. Over time, stocks of growing businesses outdistance all other investments. Compounding works best when you put your money to work in successful businesses paying dividends and stock splits, with no tax or advisor/broker fees. This kind of investment return is very likely but not guaranteed. But wouldn't you rather have \$1 million, more or less, than \$150,000 in the bank?
