

Homeopathic medicine is able to help even the most severe cases of mental illness, as convincingly demonstrated by the popular and respected homeopathic doctors, Judyth Reichenberg-Ullman and Robert Ullman in this book. They show alternatives to the widely used antidepressants, anti-anxiety medications, mood stabilizers and anti-psychotics which often have which often have side effects and which are unable to satisfactorily resolve the underlying problems. Using examples from their own practice, they describe impressive long-term successful treatments for depression, anxiety, bipolar disorder and other types of mental illness. Homeopaths will also find this book, a revision of the popular Prozac Free, exceptionally helpful, as the authors present many unusual remedies such as Bismuth, Chocolate and Hydrogen. Psychiatrists, psychologists, and other therapists can find here a truly promising alternative to the use of conventional psychopharmaceuticals. A book to inspire and motivate.
